

YOU HAVE CANCER.

Now you have to
tell your children.

When a parent, grandparent, or significant member of your family is diagnosed with cancer, the whole family is impacted. Wellspring Calgary is here to support your entire family.

Wellspring's Kid Friendly Programming provides opportunities to attend with your kids, including an 8-week program that brings you and the kids in your life together for networking, education, support and coping strategies.

For an online resource to help with suggestions and best practices for talking with your kids, and for more information about our programs please go to our website at www.wellspringcalgary.ca.
